

# BOW Token Whitepaper

## Introduction

BOW is a community-driven cryptocurrency on the Binance Smart Chain, themed around precision, strength, and strategy-like an archer's bow. It's not just a token, it's a symbol of sharp vision, focus, and the aim for long-term value.

## Mission & Vision

Our mission is to empower a decentralized community to build, trade, and thrive in a crypto ecosystem inspired by the spirit of archery. The vision: to be the leading archery-themed utility token across DeFi, gaming, and NFTs.

## Tokenomics

Total Supply: 1,000,000,000 BOW

- Buy Tax: 2%
- Sell Tax: 2%
- Burn: 10% of initial supply
- Liquidity: Locked for 1 year

Transparent tokenomics ensure sustainable growth and community trust.

## Utility

BOW is designed for more than just trading. Planned use cases include:

- Staking with high-precision rewards
- Access to archery-themed NFT drops
- Entry into the BOW Game platform
- Governance and voting rights

## Roadmap

Phase 1: Token & Website Launch

Phase 2: DEX Listings, Marketing

Phase 3: NFT Collection, Staking

Phase 4: Game Development

Phase 5: DAO Integration and Expansion

## Community & Governance

BOW thrives on community. Major project decisions, feature launches, and treasury allocation will be influenced by token holders via on-chain governance.

## Security & Transparency

BOW is committed to safety:

- Contract will be audited
- Liquidity locked for a year
- Community multisig wallet for development funds

No rugs, no games-except the fun kind.

## Closing Thoughts

BOW is more than just a meme or a token-it's a mission. Join us as we aim true, shoot far, and build something unforgettable together.
